

EXCHANGE PROGRAMMES IN MANAGEMENT

UNIVERSITY COLLEGES LEUVEN-LIMBURG (UCLL)

UC Leuven-Limburg is a University of Applied Sciences that takes **internationalisation** at heart by, among others, attracting foreign students for degree and exchange programmes. Every year **over 600 international students** visit UC Leuven-Limburg for a degree or exchange programme.

Our campus Diepenbeek is situated near **Hasselt** and part of the **Meuse-Rhine Euroregion**, with fast and easy access to Belgium's surrounding countries. The Euroregion acts as a catalyst and facilitator for trade and industry and attracts many large international companies. The region also has a large offering in student activities, cultural centres, museums and festivals. UCLL has for example a long partnership with the international festival Pukkelpop with innovative and sustainable projects.

BECOMING A STUDENT IN LIMBURG

If you are looking for a life-changing experience as an **exchange student**, studying at the faculty of Management in Limburg may be exactly what you are looking for.

WELCOME DAYS

Every semester starts with welcome days. During these days you get a lot of **practical information** you need for a successful study period in Limburg. Meanwhile you have the opportunity to look for **accommodation**. These first days also create possibilities to **socialize** with international and local students.

PROGRAMME DETAILS

OUR EXCHANGE PROGRAMMES

Our faculty of Management offers a **fall and a spring programme**. Students attending courses at our faculty cover a **wide range of management subjects**. The majority of the courses are structured in an interactive, coached self-teaching format. Their subject matter will be acquired not only through lectures but also through self-study guided by the coaches.

We **encourage the interaction** of exchange students with degree students. Exchange students are for example involved in cooperative projects together with local students and businesses, but they can also sign up for a local buddy who will help them discover our local culture in a different way.

With our new course **Community Design Thinking** (12 ECTS) we offer an answer to complex challenges each society, organization or person is confronted with. These are tackled in a multidisciplinary and multiple perspective approach during classes, company visits and real life projects in transdisciplinary international teams.

PUKKELPOP: INNOVATION AND SUSTAINABILITY

Pukkelpop is an annual music festival that takes place near the city of Hasselt. Since 2015 Pukkelpop and the UCLL experts in energy, business models and communication have been working together to take additional steps in **sustainability and ecology** during the international festival. With this partnership, the festival wants to come up with ideas to become energy self-sufficient for the future.

Pukkelpop attracts many youngsters from around the region with its line-up of internationally acclaimed artists. It is part of the cultural offerings in the region for students.

The partnership proves that sustainability is highly valued by UCLL and it is needed everywhere. The students who participate in this project are willing to sacrifice a large part of their holiday and work together to generate plenty of ideas to continue the cooperation for many more years to come.
